

Huawei Inverter – Oversizing guidelines on Huawei Inverters

As the manufacturer, we hereby confirm that Huawei inverters can be oversized with a DC/AC ratio higher than 150% according to below guidelines without voiding the manufacturer's warranty:

- The Voc of PV array must not exceed the Max. input voltage specified on the datasheet and user manual of Huawei Inverters under any circumstances
- The Maximum short circuit current of PV array must not exceed the Max. short circuit current specified on the datasheet and user manual of Huawei Inverters

This declaration is valid for:

SUN2000-2-6KTL-L1

SUN2000-5/6KTL-M1

Issued: 28/04/2021

Yours sincerely,
